designs

Fatima has been learning about She knows that the word "robot" can mean different things to different people.

In general, a robot is a that can independently:

- ☐ its environment.
- ☐ carry out computations to make decisions.
- ☐ do actions in the real world.

What makes robots different to other machines is their ability to

Fatima wants to become a roboticist. This is a person that, builds, programs, and operates robots.

Robots and robotics

Real-world applications

Activity 6

Match the applications of robots with the images.

Applications	Image
manufacturing	
transport/logistics	
medical	
space/exploration	
home automation
