

Sadina's Day

Sadina felt ill. She rang the doctor. She made an appointment.

She went to the doctor's at the right time. She had to wait because there were lots of ill people. The doctor asked: "What's the matter?" Sadina said: "My head hurts. I've got a sore throat." The doctor took her blood pressure. The doctor gave her a prescription.

She went to the chemist's. The chemist gave her some medicine. She had to pay.

Sadina went home. She took the medicine. Soon, she felt better!
