

Ακολουθήσε τα παραδείγματα χωρίς να βιάζεσαι!!!!

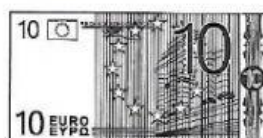

1

Μετρώ τα χρήματα και γράφω πόσα είναι, όπως στο παράδειγμα:

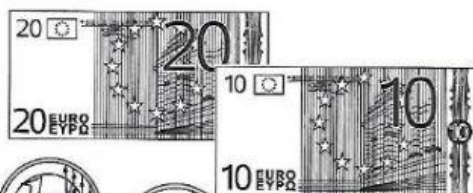

Γράψε τα νομίσματα από το μεγαλύτερο, σε αξία, στο μικρότερο.

$$10 + 10 + 5 = 25$$

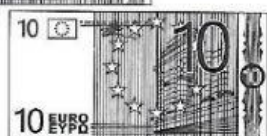

$$+ + =$$

$$+ + + =$$

$$+ + + =$$

$$+ + =$$

$$+ + + =$$

2 Συμπληρώνω τις ισότητες:

$10 + 5 = \dots\dots\dots$

$10 + \dots\dots\dots = 12$

$10 + 8 = \dots\dots\dots$

$10 + \dots\dots\dots = 15$

$10 + 6 = \dots\dots\dots$

$10 + \dots\dots\dots = 19$

$10 + 3 = \dots\dots\dots$

$10 + \dots\dots\dots = 14$

$10 + 7 = \dots\dots\dots$

$10 + \dots\dots\dots = 11$

$17 - 7 = \dots\dots\dots$

$18 - \dots\dots\dots = 10$

$14 - 4 = \dots\dots\dots$

$16 - \dots\dots\dots = 10$

$13 - 3 = \dots\dots\dots$

$13 - \dots\dots\dots = 10$

$19 - 9 = \dots\dots\dots$

$12 - \dots\dots\dots = 10$

$12 - 2 = \dots\dots\dots$

$15 - \dots\dots\dots = 10$

3 Συνεχίζω όπως στο παράδειγμα:

$25 = 10 + 10 + 5$

$27 = \dots\dots\dots + \dots\dots\dots + \dots\dots\dots$

$23 = \dots\dots\dots + \dots\dots\dots + \dots\dots\dots$

$28 = \dots\dots\dots + \dots\dots\dots + \dots\dots\dots$

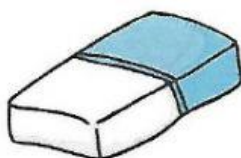

$36 = 10 + 10 + 10 + 6$

$32 = \dots\dots\dots + \dots\dots\dots + \dots\dots\dots + \dots\dots\dots$

$36 = \dots\dots\dots + \dots\dots\dots + \dots\dots\dots + \dots\dots\dots$

$39 = \dots\dots\dots + \dots\dots\dots + \dots\dots\dots + \dots\dots\dots$

$45 = \dots\dots\dots + \dots\dots\dots + \dots\dots\dots + \dots\dots\dots + \dots\dots\dots$

$47 = \dots\dots\dots + \dots\dots\dots + \dots\dots\dots + \dots\dots\dots + \dots\dots\dots$
