

Picture a place it all doesn't hurt
Where everything's safe and it doesn'tworse, oh my
We see bloodshot eyes
Picture a place somewhere else away
Where you know they mean,
and they mean what they say to us
And would that be?
Are we out of time?
Are we hiding from the light?
Are we just too to fight
For what we want tonight?
Close your eyes and it all behind
Go where love is on our side
It's a trust fall, baby
You and I, and alive
We can run into the fire

Jump with me,with me, burn like the sun
We'll talk, then we'll, then we'll laugh 'til we're done, oh my
It's we're out our minds
We've beenfor our lives
We've been hiding from the light
We've been far too to fight
For what we want tonight
What if we just fall?
I'm not going you
And you're not going alone
I fell so far 'til I you
But you know, you know, when you know
'Cause you know you know
