

You were my _____

And I, I have been programmed to obey

Now, you are my handler

And I, I will _____ your demands

Leave me alone

I must _____ from you

Behold my trance formation

And you are _____ to do as you please

My mind was lost in translation

And my heart has become a cold and _____ machine

I won't let you _____ my feelings any more

I will no longer do as I am told

I am no longer _____ to walk alone

Let me go, let me be

I'm _____ from your grip

You will never _____ me again
