

SUDUKO

Rules - Only using the numbers 1, 2, 3, 4

Each number can only appear once in each row and column

Each number can only appear once in each block of 4 squares

You can not put a 3 here

2		3	
	3		1

Therefore, it must go here

A 4x4 grid puzzle is shown. The top row is empty. The second row has '2' in the first column and '3' in the third column. The third row has '3' in the second column and '1' in the fourth column. The bottom row is empty. Cells are color-coded: top row (yellow), second row (yellow and green), third row (blue and orange), and bottom row (blue and orange). A red box with the text 'You can not put a 3 here' has three arrows pointing to the top-right, middle-right, and bottom-right cells. A yellow box with the text 'Therefore, it must go here' has an arrow pointing to the bottom-middle cell.

Finish this one
