

Your son/daughter is sick and cannot go to school. Write a note to his/her English teacher. Give details about what is wrong with him/her, the doctor's advice and the length of absence. Ask the teacher to send somebody with the homework and thank the teacher for help.

1. Choose the right word for each space.

Dear Mr Smith,

My son Tom                      sick and he cannot go                      this week. He has a sore throat and a                      temperature. His doctor says that he must                      in bed, take medicine twice                      day and drink a lot of water. I think                      he can go back to school next Monday. He would like                      his homework at home. Can you please send one of                      classmates to bring him his homework? We live in Novákova Street, number 22, on the first floor.                      very much for your help.

Best regards,

Jan Novák
