

YEAR 5 (2022-2023)

SUBJECT: **MATHEMATICS**

WORKSHEET: Revision( Term 2)  
**Fraction**

**TOPIC: Addition and Subtraction of**

**LEARNING OUTCOME:**

I. Students will be able to add and subtract fractions.

I. Calculate: ( one example has done)

$$1) \frac{1}{2} + \frac{1}{4} = \frac{2}{4} + \frac{1}{4} = \frac{3}{4}$$

$$2) \frac{1}{2} - \frac{5}{12} = \frac{\quad}{12} - \frac{5}{12} = \frac{\quad}{12}$$

$$3) \frac{1}{5} + \frac{4}{15} = \frac{\quad}{15} + \frac{4}{15} = \frac{\quad}{15}$$

$$4) \frac{2}{3} - \frac{3}{6} = \frac{\quad}{6} - \frac{1}{6} = \frac{\quad}{6}$$

$$5) \frac{4}{7} - \frac{5}{14} = \frac{\quad}{14} - \frac{5}{14} = \frac{\quad}{14}$$

$$6) \frac{1}{4} + \frac{5}{8} = \frac{\quad}{8} + \frac{5}{8} = \frac{\quad}{8}$$

Do the calculation in the notebook and type the final answer here.

$$7) \frac{1}{5} + \frac{7}{10} = \boxed{\quad}$$

$$8) \frac{7}{12} - \frac{1}{3} = \boxed{\quad}$$

2. George ate one-sixth of the pizza and Ali ate two-thirds of the pizza.

How much pizza did they eat altogether?

Do calculation in the notebook and type the final answer here.

3. The shaded parts of the fraction strips represent two fractions.

a) What is the sum of two fractions?  Do the calculations in the notebook and type the final answer here.

b) What is the difference between the two fractions?

4. Pierre solved this calculation.

$$\frac{3}{4} + \frac{3}{8} = \frac{6}{12}$$

What mistake has Pierre made?

---

---

Correct Pierre's answer.

---
