

# Animals Classification

1) Drag and drop the pictures into the correct columns:

|                   |  |  |
|-------------------|--|--|
| <b>Insects</b>    |  |  |
| <b>Amphibians</b> |  |  |
| <b>Reptiles</b>   |  |  |
| <b>Mammals</b>    |  |  |
| <b>Birds</b>      |  |  |
| <b>Fish</b>       |  |  |

2) Choose the correct answer for each picture:

|                                                                                                      |                                                                                                   |                                                                                                        |
|------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| <b>Seahorse</b><br> | <b>Snake</b><br> | <b>Elephant</b><br> |
| <b>Fish / Amphibian</b>                                                                              | <b>Bird / Reptile</b>                                                                             | <b>Mammal / Fish</b>                                                                                   |

|                                                                                                    |                                                                                                   |                                                                                                        |
|----------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| <b>Toad</b><br> | <b>Dog</b><br> | <b>Parrot</b><br> |
| <b>Insect / Amphibian</b>                                                                          | <b>Fish / Mammal</b>                                                                              | <b>Bird / Insect</b>                                                                                   |

|                                                                                                         |                                                                                                   |                                                                                                        |
|---------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| <b>Crocodile</b><br> | <b>Ant</b><br> | <b>Lizard</b><br> |
| <b>Reptile / Bird</b>                                                                                   | <b>Reptile / Insect</b>                                                                           | <b>Amphibian / Reptile</b>                                                                             |

3) Write the name of each category.
