St Lucia

The island of St Lucia, which (0) between St Vincent and Martinique, is said to be one of the most attractive in the Caribbean. Measuring 44 kilometres long and 22 kilometres in width, it has a central mountain (1) which runs the length of the island. There are white sandy beaches with wonderful (2) of the two tall volcanoes called the Pitons, (3) of which are covered – like most of the island – in dense forest.

The climate is hot and tropical (4) the year, with average daily temperatures of about 27°C. Showers can occur in any month, although they are usually (5) fairly quickly.

Not surprisingly, St Lucia is extremely (6) with tourists. There is a wide range of (7) , from camping to luxury hotels, and it is very well (8) by sea and air with the rest of the world. (9) this, the island remains largely unspoilt and there are many quiet places to visit.

Not far from the coastal areas there are beautiful waterfalls in spectacular green valleys, often with (10) anybody else about. The roads are narrow and winding, so it is not (11) to travel any distance by car. A much better way to (12) to know the countryside of this lovely island is on horseback.
