

Match the cause to the effect. Remember, the effect happens beCAUSE of the cause!

I was late for school

My mum was sad

I played outside in the rain

I studied hard for my test

My parents gave me a dog

I didn't water the plants in the garden

I called my best friend

because I promised to look after it.

because I missed the bus.

so they died and we had to replant some new ones.

so I made her a card

therefore I got a 10!

because it was her birthday.

so I caught a cold.
