**A Read and write.****Freshwater**

People will always need freshwater. Freshwater is water that is not in the world's oceans. You can find freshwater in rivers and lakes.

The world has many rivers. The Amazon River in South America has more water than any other river in the world, but the Nile River in Africa is the longest.

There are also many lakes in the world. Lake Superior, which is in the USA and Canada, is the biggest lake in North America. Lake Titicaca has more water than any other lake in South America.

1. What kind of water is not in the world's oceans?

2. What river has the most water?

3. Which is the longest river?

B Underline the nouns.

1. The Mississippi River is the longest river in the USA.

2. I'm taller than my best friend.

3. Apples are healthier than candy.

C Write. Then underline the nouns.

What is the longest river in your country? What is the biggest lake?
