English Language Test

Seventh Grade

Unit 7

Miss Rawaa Saeed

Read the following text then do the tasks.

Keeping the environment clean is important for being healthy. Many diseases can be prevented if we practice good personal hygiene and keep the environment clean. A healthy environment means safe food and water, clean surroundings and clean fresh water. If sick people don't follow hygiene rules, they spread disease in their surroundings. Disease causing germs enter the body through different routes.

- Through the mouth; if we eat with dirty fingers, germs enter the body.
- Through the skin; some germs cause disease if there is direct skin contact.
- Through the lungs; cold and cough are caused by viruses.
