29. sports center	<u> </u>	E. We can see different animals there.
30. museum	<u> </u>	F. We can watch a new film there.

VII. **Read the text.**

BASEBALL

Baseball is a bat and ball game for two teams. There are nine players in each team. They play on a piece of ground called a diamond. There are four bases; one is at each corner of the diamond.

Each team tries to score the most runs. Each player has a turn with the bat - he is the batter. Each team has players who throw the ball at the batters; they are the pitchers. Players who are not pitching are the fielders.

The pitcher throws the ball at a batter. The batter tries to hit the ball very hard and run past as many bases as he can. The fielders try to get the ball and throw it to a fielder on one of the bases. The batter tries to get to a base before the fielder at the base catches the ball. If he cannot do it, he is out and does not score a run. He scores a run only when he passes the last base.

Choose the best answer. (1 point)

0. *How many players are in a baseball team?*

A. Two

B. Four

☒ C. Nine

D. Ten

Page 3 of 4

31. A player scores a run when he passes the _____ base.
