UASA Part 3

When Emma left school at the age of sixteen, her aunt Rose gave her RM500 for her birthday. Most of Emma's friends decided to go to college, but Emma used her aunt's money to start her own business. She bought fruit, sugar and some glass jars and began making her own jam. She sold the jam for RM2 a jar to her friends, and she soon doubled her aunt's RM1500.

At first, her parents didn't want Emma to spend her time making jam, and they thought that she should study instead. They hoped that one day she would be a teacher or a doctor. But Emma didn't listen to them. She just kept on making jam. After a few months, Emma started selling it to the local market. Then she started making orange juice. She sold this to a school where one of her friends worked.

After two years, her business was very large, and her parents were very pleased with her. She made all kinds of food which she sold to shops and supermarkets. She was so busy that she had to get some people to work for her.

John

I really love soccer. It's fun and interesting. I'm a member of our school team and I play four times a week. I'm also fond of cricket and I play it a lot in summer. I don't like table tennis. I think it's boring.

James

I don't like sports at school very much, but I like going fishing with my dad. It's fun and it's very exciting. Sometimes, during the holidays, we go to Scotland and go deep-sea fishing. It's so thrilling when you can catch a fish.

Lina

I absolutely hate gymnastics. Our teacher is really horrible. What I like best is swimming because I'm very good at it. I can swim the hundred metres faster than other kids in my class. I also quite like badminton. I usually play with my friends at the park nearby.
