

- describe similarities and differences between homes now and in the future
- use "might" for future possibilities

1. Match the pictures with the words in the box.

drone

3D printer

robot helper

screen

automatic food machine

smart device

2. Circle the correct words.

- a) Now, we *do* / *might* do our own housework. In the future, we *have* / *might* have robot helpers.
- b) In the future, we *have* / *might* have automatic food machines. Now, we still *use* / *might* use ovens and fridges.
- c) We *have* / *might* have computers now. But soon, we *have* / *might* have smart walls.

3. Complete the sentences using might and a word in the box.

- In the future, automatic food machines might cook all our food.
- In the future, robots _____ all our housework.
- In the future, we _____ movies on smart walls.
- In the future, 3D printers _____ all kinds of things.
- In the future, we _____ many smart devices.
- In the future, robot drones _____ all our groceries.
