Lionel Messi's routine

1)- Read the text:

Lionel Messi is a world-wide famous football player. He is thirty-five years old. He lives in Paris, France; but he is from Rosario, Argentina. Antonella Rocuzzo is his wife, and they have got three children: Thiago, Mateo and Ciro.

"I have got a very normal routine", Messi says. He gets up at five o'clock and has breakfast with his family. He doesn't take a shower in the morning. Later, his children go to school and Messi goes to football training with the Paris team at half past six. Antonella stays at home. After his football training, Messi goes home at quarter past one and takes a shower. Then he has lunch with his family. His children don't play after school. They do their homework first. Later, they take a nap at twenty past three. They get up and drink mate at five o'clock.

Thiago plays football and Mateo and Cirio play video games in the afternoon. Lionel and his family have dinner at half past nine. They don't watch tv. They eat and talk about their day. They go to bed at eleven o'clock. "I don't scroll on Instagram or Twitter before going to bed", Messi says.
