

Women in science

1. Read the texts and answer the questions:

ROSALIND FRANKLIN

She was the first person who took a picture of the structure of the DNA (In Spanish, known as "ADN"). She was born in London (England), in the year 1920.

When was Rosalind Franklin born?

Where was Jane Goodall born?

JANE GOODALL

She was born in London (England), in 1934. She studied monkeys in their natural habitat and demonstrated that they have feelings.

MARGARET HAMILTON

She was born in Paoli (United States of America), in 1936. She used the computer to create the code that helped astronauts to arrive to the Moon.

What did Margaret Hamilton create?

What were these women's jobs?

2. Match each name with the picture related with the scientist:

ROSALIND FRANKLIN

JANE GOODALL

MARGARET HAMILTON
