

Name _____

The Engineering Design Process

Match the word to the definition:

*What is the problem? *How do we start? *What do we need?	*Draw your design. *Make a list of materials you need.	*What works? *What could be better? *Change your design.	*Brainstorm ideas. *Choose the best one!	*Follow your plan. *Create something, then test it!

Cut out the words below and paste them into the box that matches that part of the Engineering Design Process. Then cut around the boxes above and put the steps in the correct ORDER in your science journal.
