*Cheng Lei*

In my free time, I really enjoy listening to music. My favourite music genres are k-pop and j-pop music, but sometimes I also listen to rap songs. I've even daydreamed of becoming a famous singer one day, but I don't think I will. Someday, I will go to a Seventeen concert with my best friend Samantha, it will be great, but now my parents don't allow me to go there because they say I'm still a teen. Well, I also spend some time watching my favourite series online, and I play Fortnite with my brother from time to time. I also play Nintendo 3DS, I especially like Tomodachi Life, a life simulation video game. In my free time, I don't usually play sports, I don't like it, but sometimes I watch badminton matches on the TV.

*Robinson*

Whenever I have free time, I play computer games. I spend a lot of time in the computer playing League of Legends with my friends, but I also play Blizzard and World of Warcraft. I wouldn't mind to become a professional gamer and play e-sports, but my cousin Stephen always tells me that's not an easy thing to do. Well, I also play PS4, and I have played plenty of games in that platform. I don't really do anything else in my free time, but while I'm playing online I sometimes listen to rock or trash music, which makes it even more exciting. My parents say I play too many videogames, but I'm not really into any sports except from hockey, which I may play in the future, now I'm too young for that, so I'll play NHL 19 online in the meanwhile.

*Johanna*

In my free time, I usually hang out with friends and take part in the High School female basketball team. But the thing is: I don't really have plenty of free time in my life. I'm a busy student and I need to learn the most I can and get the higher grades at school. Also, I help my parents run their cosmetics shop in the avenue, which is not an easy task to do. From time to time, I also take care of my grandparents as my parents are working throughout all the week, so my weekends are not usually free. However, I spend some time listening to rock music when I just wake up in the morning, and I listen to classical music when I go to sleep. Additionally, every week I spend some time playing videogames with my best friend Alex, who is my neighbour as well: his favourite one is Call of Duty, but I'd rather play NBA 2k with him, we have lots of fun together.

*Robert*

When I have free time, I really like playing the piano. I started to learn playing the piano recently and just loved it, so it's the first thing I want to do after coming back home from school. But don't think I'm really into traditional classical music, I just like piano music such as that of Ludovico Einaudi and Yiruma. I'm not really keen on playing videogames, I played too many horror games when I was six or seven, so I used to have plenty of nightmares then. I'd rather watch Game of Thrones, which is my favourite series actually, along with Stranger Things and Black Mirror. Also, I don't really like playing sports, but my older brother plays for the local handball team, so I go to the local stadium twice a month to encourage him. In my free time, I also chat with friends and acquaintances in Twitter, Facebook and Instagram, and sometimes we meet together and have some soda out there.
