

**Listen to the song**

**"I could be every color you like"**

What's your color ?

I wanna know

What's your color?

I wanna know

What's your color?

I wanna know

I wanna know

I could be                    or I could be

I could be                    or I could be

I could be                    or                    or                    or

I could be every color you like
