## Hands-On Activity: Diversity

*Directions: Follow the steps of the activity and drag to answer the questions.*

**Step 1:** Collect an egg with a white shell and an egg with a brown shell.

What is **different** about the eggs?

What is **similar** about the eggs?

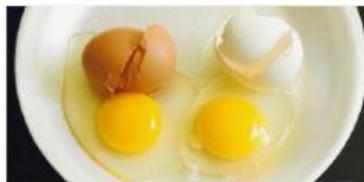

The eggshells are different colors.

The eggs are both oval shaped.

**Step 2:** Crack the white and brown shelled eggs into each side of a plate.

**Compare** both egg yolks and

egg whites, how do they look?

How does this activity compare to

**people's** outward differences

and inward similarities?

People look different on the outside,

but we are all the same on the inside.

The egg yolks and egg whites from

both eggs are the same color.
