1. Read about the Bermuda Triangle. Where were the boat, the plane and the ship? Drop them.

A boat called the SS Marine Sulphur Queen was sailing somewhere between Miami and Cuba in 1963 when it went missing. People looked for the ship for 19 days but it was never found. A plane (flight NC16002) disappeared when it was flying half way between Puerto Rico and Miami. No one found the plane or the 32 people on it.

In 1967 a ship was having problems at sea, so the captain called the Coast Guard. The Coast Guard, who help people in trouble at sea, arrived 19 minutes later to look for the ship, but they never found it. It was only one mile south of Miami.
