

Συμπληρώνω τις προσθέσεις και τις αφαιρέσεις με πάτημα στη δεκάδα:

$$8 + \underset{\swarrow \searrow}{7} =$$

$$15 - \underset{\swarrow \searrow}{8} =$$

$$6 + \underset{\swarrow \searrow}{8} =$$

$$13 - \underset{\swarrow \searrow}{9} =$$

$$9 + \underset{\swarrow \searrow}{5} =$$

$$16 - \underset{\swarrow \searrow}{7} =$$

$$2 + \underset{\swarrow \searrow}{9} =$$

$$14 - \underset{\swarrow \searrow}{6} =$$

Λύνω όπως το παράδειγμα:

$$13 - 9 = \underline{4}$$

Diagram illustrating the subtraction process: 9 → 10 (labeled 1) → 13 (labeled 3). A green arrow points from the 10 to the result 4. A red arrow points from 10 to 13, with a '+' sign above it.

$$16 - 8 = \dots\dots$$

8 → 10 → 16

$$15 - 7 = \dots\dots$$

7 → 10 → 15

$$14 - 5 = \dots\dots$$

5 → 10 → 14

$$13 - 7 = \dots\dots$$

7 → 10 → 13

Συμπληρώνω το αριθμοσταυρόλεξο:
