

- Read what Thomas thinks about the future.

Life in the future

Life in the future will be very different. Houses will have solar energy. Refrigerators will talk to people and tell them to buy more food.

Everyone will have robots at home. House robots will do different things around the house: They will clean, they will go shopping and they will cook delicious meals for us.

I think that students won't go to school anymore because they will have virtual teachers. Televisions won't exist anymore because people will watch TV on their computers.

- Choose **WILL** or **WON'T** to complete the sentences.

- 1) Houses have solar energy.

- 2) Refrigerators** talk.

- 3) Robots watch TV.

- 4) Robots** cook delicious food.

- 5) Students go to school.

- 6) Televisions exist anymore.
