

Today is National Eat Your Vegetables Day!

Let's celebrate with these veggie math problems!

1. How many pieces of broccoli?

4	1	3
----------	----------	----------

2. How many peppers?

6	1	7
----------	----------	----------

3. I had 10 celery sticks. My friends ate 6 pieces of celery. How many celery sticks do I have left?

10	4	6
-----------	----------	----------

4. I am going to buy 3 yams. Each yam costs \$0.25. How much will the yams cost altogether?

= \$0.25

\$0.75	\$0.25	\$1.00
---------------	---------------	---------------

5. There are 5 servings in this bag of carrots. The serving size is 10 carrots. How many carrots are in this bag altogether?

$$5 \times 10 = \underline{\hspace{2cm}}$$

500	50	15
------------	-----------	-----------
