

Stuck at home

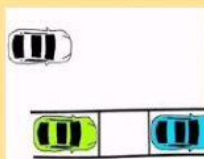

Hi guys! My name is Steve, I live in London, With my parents and my two sisters. Some time ago the government decided to close all schools in the UK. But why? Well, like millions of people in the world we are stuck at home to help slow down the transmission of that deadly virus: the Covid -19.

So now we must all stay at home and **wash our hands** as much as possible, teachers send us work thanks to the internet, and we can **study** from home! Then we **play games** (video games or board games) and **we watch TV**.

We are really bored at home, but we know this is needed, so we try to have a routine, in the morning we **exercise**, then I **take a shower**. In the afternoon I **water the plants** and my mom is teaching me how to **cook**, I make delicious snacks that my sisters happily **eat**. AT night when my father arrives, I help him to **park the car** by opening the doors, finally we stay together talking about the day and making jokes then we go to **sleep**. We learn how to confront the lockdown in family, and it has not been so difficult.
