

## USE OF ENGLISH – ASSIGNMENT #8

### UNIT 2 – Use of English 1 and 2

#### 1. Read the article and choose the correct answer.

**Is comedy the same everywhere?**

Everyone likes to laugh, but does everyone laugh at the same things? There are some stereotypes: for example, people believe that the Germans are **1**.....serious than other nationalities or that British jokes are **2**.....to understand. A poll of the world's favourite comedy movies showed that some nationalities don't find the same movies as **3**.....others do. But this is probably because jokes don't translate very well, so the original version is **4**.....than the translated one. A bad translation might make them **5**.....amusing, or maybe not even funny at all! Some comedy movies are **6**.....popular in certain countries because they make references to pop culture. If you don't know what the characters are talking about, it is a **7**..... difficult to understand the joke.

**4. Complete the article with the correct form of the words in brackets.**

**Urban legend, or just a good story?**

Everyone knows at least one urban legend. But most people couldn't 1 (HONEST)

say where or when they first heard it. By the time you hear it, it may have changed from the

2 (ORIGIN) story. And by the time someone else hears it, it will

3 (PROBABLE) be different again! No one really knows if people telling

urban legends are telling the 4 (TRUE). In fact, most of them might be

inventions. Sometimes, they are exaggerated versions of incredible events that appear in the news.

So, why do they spread so 5 (QUICK) and widely? Most likely because they

sound like they could be real. And, even if we hear them and know that they

6 (CERTAIN) aren't real, they are usually amusing. They often have a lesson that we can all 7 (EASY) understand. Legends are also seen as something interesting and 8 (MYSTERY), so we pass them on for a bit of fun.

**5. Complete the text messages from a young reporter at a technology exhibition. Use the past simple, past continuous or past perfect form of the verbs in brackets.**
