

7. EL. Reading Part 2

You are given a piece of text which is divided into sections. You are also given information about people who are interested in elements of the text. Choose which section of the text corresponds to each person. There is only one section for each person.

ACTIVITIES FOR RAINY DAYS

A - CITY BOWLING

Our bowling centre is awesome! We have 28 lanes, a bar, and an amusements zone jam packed with games for younger kids. Our experts will get the kids jumping with excitement. You can also book a party for more than 8 children (between 5 and 12) with fun, food and refreshments included in the ticket. From Monday to Friday from 2pm to 7pm and on Saturday and Sundays from 2pm to 10pm. Special discounts for schools.

B - THE TOWN LIBRARY

If your children like reading, the town library is the place to be. They can borrow 4 books or magazines for a week. We also have experienced staff who can give assistance about their favourite books, graded by authors or topics. Shows and exhibitions are also available. We have a great interactive section for younger children. Our experts give daily readings at different times, and we are open every day from 2pm to 6pm.

C - COME AND PLAY

Here at COME AND PLAY, the fun doesn't stop when it rains. We run the only indoor playground in town with a wide selection of traditional toys and board games for all ages. For the little ones, between 4 and 8 years old, we organize special 2-hour-long sessions. For big groups, snacks and refreshments are included in the price. Open every day from 3pm onwards.

D - THE STAGE

Why not join an interactive theatre? This summer our programme includes not only the regular plays where children sit and watch, but also performances that invite audience members to join in and help create the show and influence the action. Children are separated into groups to have different experiences: dancing, acting, set design, etc. For children 12-16 years old. Open every day from 5pm to 8pm. School groups in the morning.

E - THE TOY MUSEUM

This toy museum is one of the nicest in Europe. It has over 700 exhibits from different parts of the world. Visitors can see and touch working models of some of the most delightful toys ever created. Suitable for children over 8. Open daily between from 12 till 8, for the months of July and August. Closed on Saturdays.

F - THE AQUARIUM

Children love going to an aquarium! Watching colourful sea creatures swimming around in the tanks can seem magical to them. Come over and we will take you and your children on a spectacular underwater adventure. Sharks, turtles, clownfish, piranhas, lionfish and many

more species are all waiting to be discovered. Interactive activities for all ages. Open every day from 10am to 5pm. Special discount on 'ticket and lunch' for school groups.

G - THE ROXY CINEMA

This is the biggest cinema complex in the area with 20 screens. We have different movies every day and we show different movies according to age groups. The ticket allows people to attend 3 different sessions daily throughout July and August, and there is a discount for groups. So, if you need somewhere to take your kids during the summer, there's nowhere better than the movies.

H - CITY SWIMMING SCHOOL

At the City Swimming School, we offer lessons for all ages. The pool is heated to a comfortable temperature, and as we are indoors, there are no distractions from wind, insects or solar radiation. Children can focus on their skills and do not need sunscreen. We never cancel lessons due to bad weather. Children are grouped according to their age and abilities, and classes last 1 hour. Open from Monday to Friday from 8am to 5pm.

QUESTIONS - PARTICIPANTS

- ☐ 1 - **Beatrix** is a music teacher working in a summer camp for children over the age of 9, for the month of July. The weather forecast predicts rain for Friday, so she is planning to take a group of children on an outing after lunch. They want something active, and don't want to sit.
- ☐ 2 - **Hugo** runs a summer camp in August for kids aged 5-14, and it has rained every day for a whole week. He needs an activity to cheer his kids up, and is looking for something in the same place, that could keep them entertained but quiet. It also needs to be reasonably priced.
- ☐ 3 - **Natalie**, Flora's daughter, has invited a group of nine friends for her 12th birthday on Saturday. Unfortunately, the weather forecast suggests rain, so she is considering taking them to the city to enjoy the afternoon together and have dinner in the same place. It would be great if there were people to look after them and games for her little brother Sammy too.
- ☐ 4 - **Mr. Sharp** is looking for an activity for his four children (aged 4, 6, 8 and 10) to do on the summer weekdays in the morning to have fun and learn something useful. He would prefer the activity to be indoors to avoid missing lessons due to rain.

5 - **Grace** is a teacher at summer camp and looks after the youngest kids. The rain has dampened spirits, and so she is thinking about taking them to the town to have fun for a couple of hours around tea time. Ideally she would like them to play in a playground.
