

姓名: _____

数学练习十七

日期: _____

请观看以下视频和幻灯片，然后回答问题。 Sila menonton video dan slides di bawah dan menjawab soalan selepas itu.

A) 用减法计算以下各题。 Sila guna cara tolak untuk selesaikan soalan.

$$18 \div 3 = \underline{6}$$

$$\underline{18 - 3 = 15}$$

$$\underline{15 - 3 = 12}$$

$$\underline{12 - 3 = 9}$$

$$\underline{9 - 3 = 6}$$

$$\underline{6 - 3 = 3}$$

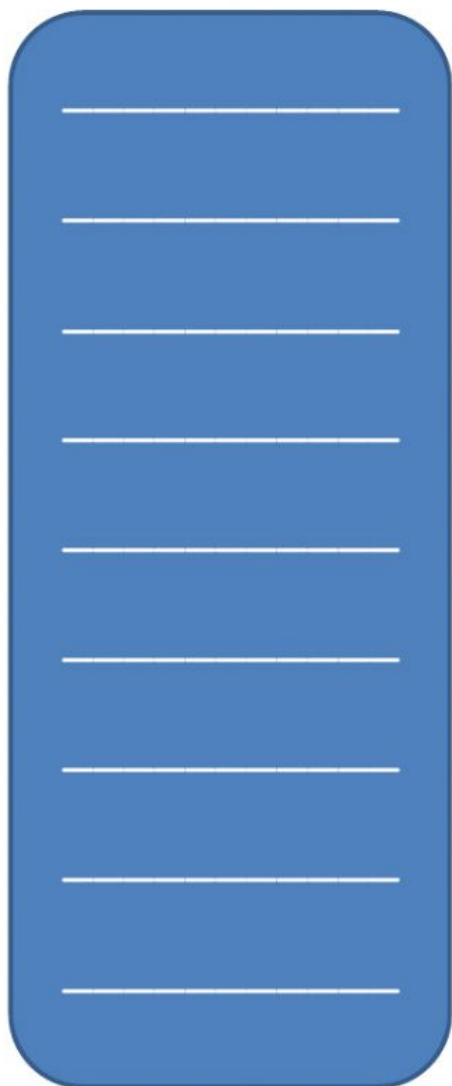

$$\underline{3 - 3 = 0}$$

減了 次

$$20 \div 5 = \underline{\quad}$$

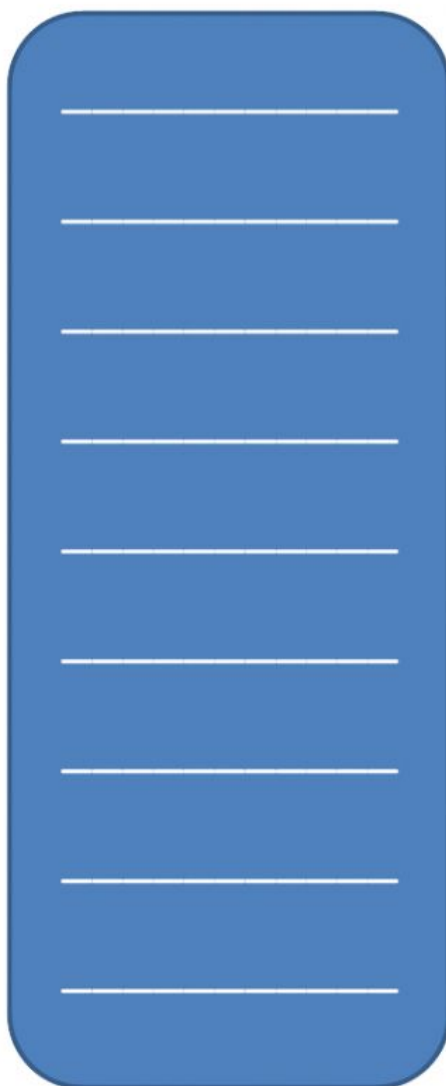

減了 次

$$32 \div 4 = \underline{\quad}$$

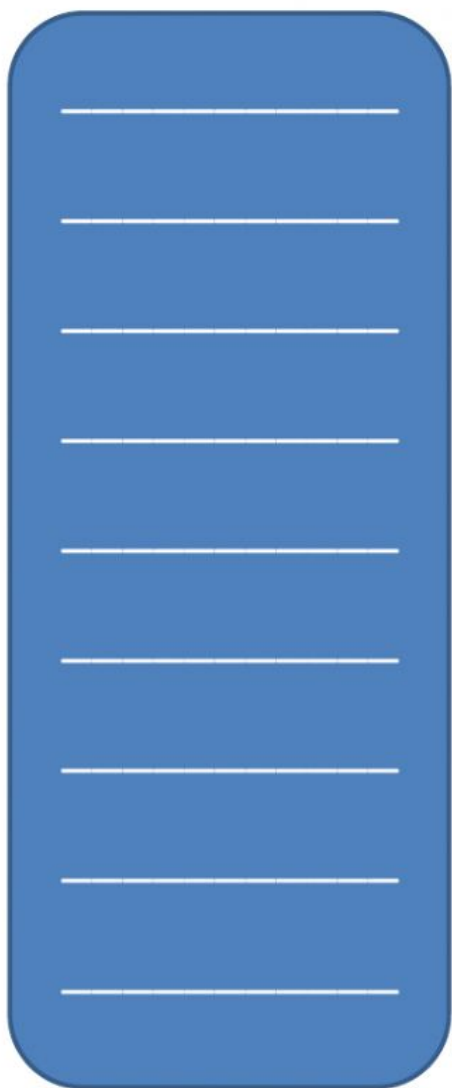

減了 次

$$27 \div 3 = \underline{\quad}$$

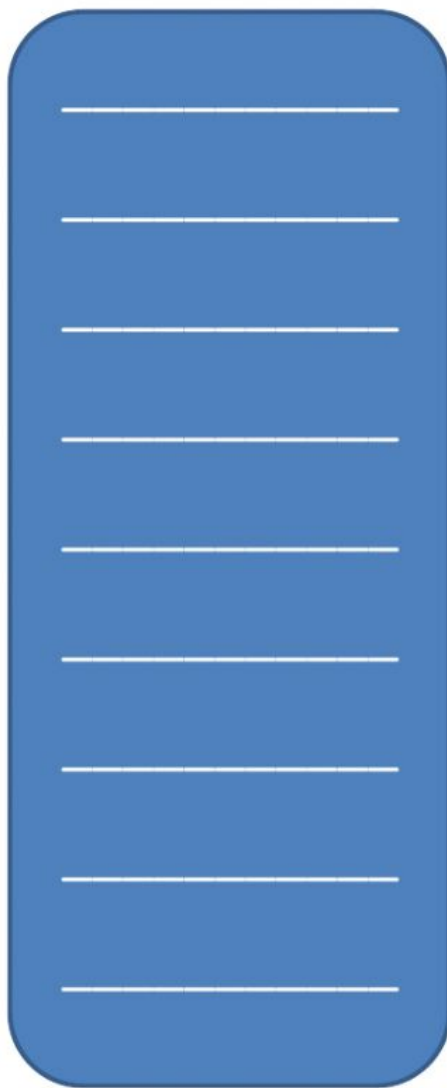

減了 次

$$40 \div 5 = \underline{\quad}$$

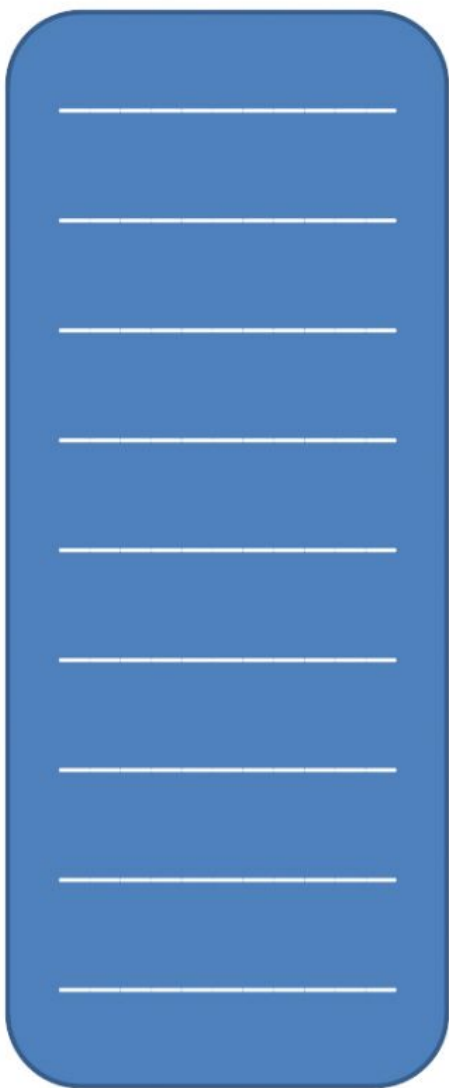

減了 次

$$63 \div 9 = \underline{\quad}$$

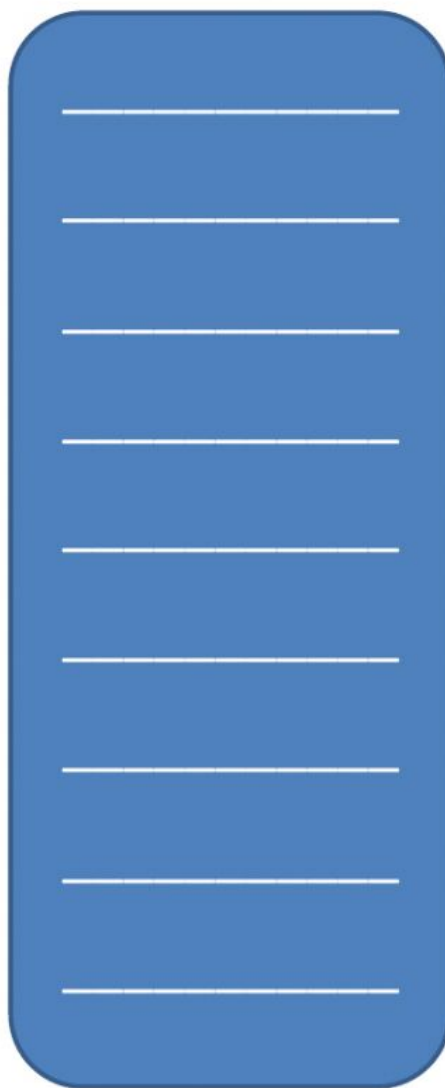

減了 次

$$72 \div 8 = \underline{\quad}$$

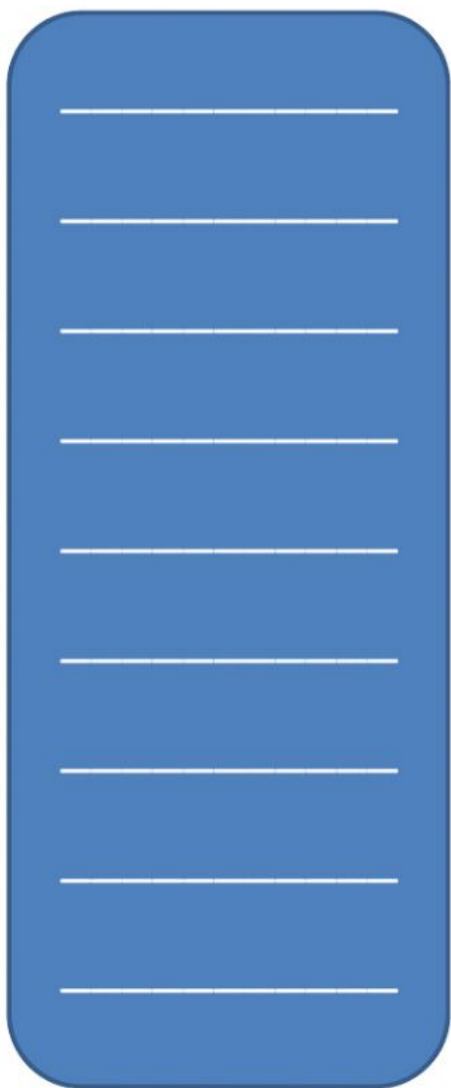

減了 次

$$30 \div 5 = \underline{\quad}$$

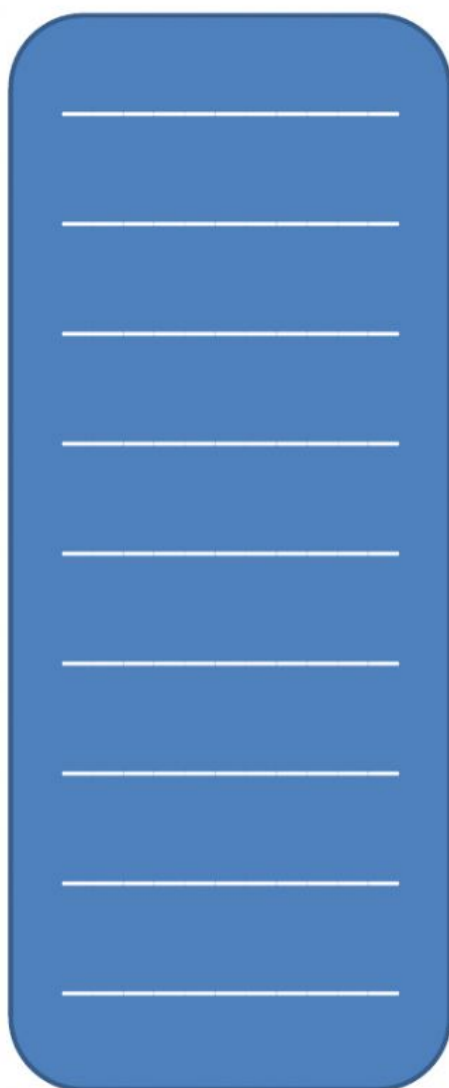

減了 次

$$16 \div 4 = \underline{\quad}$$

減了 次

$$12 \div 6 = \underline{\quad}$$

減了 次

B) 用乘法计算一下各题。 Sila guna cara darab untuk selesaikan masalah.

$$6 \div 2 = 3$$

$$3 \times 2 = 6$$

$$10 \div 2 = \underline{\quad}$$

$$\underline{\quad} \times 2 = 10$$

$$21 \div 3 = \underline{\quad}$$

$$\underline{\quad} \times 3 = 21$$

$$16 \div 4 = \underline{\quad}$$

$$\underline{\quad} \times 4 = 16$$

$$40 \div 8 = \underline{\quad}$$

$$\underline{\quad} \times 8 = 40$$

$$18 \div 2 = \underline{\quad}$$

$$\underline{\quad} \times 2 = 18$$

$$35 \div 5 = \underline{\quad}$$

$$\underline{\quad} \times 5 = 35$$

$$64 \div 8 = \underline{\quad}$$

$$\underline{\quad} \times 8 = 64$$
