Back to school

Choose the correct name for each item.

3. Read, guess and say what subjects are these? Which of them do you study?

1. This subject is about different forces: movement, electricity, pressure, gravity, heat and their affection on the objects.

2. This language is spoken in Great Britain, the USA and many other countries. It is studied at school too.

3. This subject is about the planets, stars, comets. The lessons can be held in the observatory where we can watch the stars.

4. This subject is about different chemical substances, their structure, properties and their reaction with other substances.

6. This subject is about the theoretical and practical use of computers and storage of different information.

7. This subject helps our bodies to be strong and healthy. It is held in the gym at school or at the stadium.

8. This subject is about the countries, oceans, mountains, climate, seas, rivers and cities. It is very interesting.

9. This subject is about the historical events happened in our country and abroad long years ago.

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____

4. Read and choose True or False statements:

My favorite teacher

Hi! My name is Andrew and I study at High School in Norwich. I like my school and most of all I like astronomy. Jenny Brian is our astronomy teacher. She is very patient, and helpful. She knows a lot of interesting facts about the planets and she explains everything very simply. We do a lot of things at her lessons: we draw maps of stars; we write letters with our questions to the famous astronomers; we organize scientific conferences about space and space exploration. We also write fantastic stories about space exploration. She loves her subject and we love it too. I think I know much more about space and stars now. We saw a lot of scientific films about the origin of stars and planets.

Statements: TRUE FALSE

1. Andrew estudies in Bristol. _____
2. His favorite subject is astronomy. _____
3. Her teacher's name is Kate Brian. _____
4. The students do a lot of things at her lesson. _____
5. She is a talented teacher _____
6. Students watched a lot of stars in the sky. _____
