|-------------------------------------------------------------------------------------|----------------------------------------------|--|
|    | What happened to you?                        |  |
|                                                                                     | 你怎么了?                                        |  |
|                                                                                     | Nǐ zěnmē le?                                 |  |
|    | My stomach hurts.                            |  |
|                                                                                     | 我的肚子好痛。                                      |  |
|                                                                                     | Wǒ de dùzi hǎo tòng.                         |  |
|   | Did you take medicine?                       |  |
|                                                                                     | 你吃药了吗?                                       |  |
|                                                                                     | Nǐ chī yào le ma?                            |  |
|  | I have. But it still hurts.                  |  |
|                                                                                     | 吃了。可是还是很痛。                                   |  |
|                                                                                     | Chī le. Kěshì háishì hěn tòng.               |  |
|  | Why don't we go to the hospital to check it! |  |
|                                                                                     | 要不我们去医院看看吧!                                  |  |
|                                                                                     | Yào bù wǒmen qù yīyuàn kàn kàn ba!           |  |
