

## Kaleidoscope (A Great Big World)

My life

My life was black and white and I believed it  
I believed it

My eyes

My eyes looked at the [redacted] but couldn't see it  
I couldn't see it

You're like the thing that makes the universe [redacted]  
Into the colours of a world I've never known  
You keep turning, keep turning my life around

Violets and [redacted]  
Diamonds and circles  
You're my kaleidoscope  
I love every minute  
You've got me in it  
You're my kaleidoscope

Hey la nah nah oh  
You keep turning, keep turning my life around  
Hey la nah nah oh  
You keep turning, keep turning my life around

Tonight

The stars are in your [redacted] and I surrender  
I surrender

Tonight  
Our hands against the [redacted] we are forever  
We are forever

It all looks better when I see it with you [redacted]  
You keep turning, keep turning my life around

Violets and...

I closed my eyes to the orange [redacted]  
Living all of my days the same [redacted]  
Then you came along, and you sang your [redacted]  
And the whole world around me changed

purples

wind

explode

world

song

skies

eyes

here
