- c. Read the uses of SIMPLE PAST, then drag a sentence for each use.

- Use the simple past to express the idea that an action started and finished at a specific time in the past. Sometimes, the speaker may not actually mention the specific time, but they do have one specific time in mind.
- We use the simple past to list a series of completed actions in past. These actions happen 1st, 2nd, 3rd, 4th, and so on.
- The simple past can be used with a duration which starts and stops in the past. A duration is a longer action often indicated by expressions such as: for two years, for five minutes, all day, all year, etc.
- The simple past can also be used to describe a habit which stopped in the past. It can have the same meaning as "used to." To make it clear that we are talking about a habit, we often add expressions such as: always, often, usually, never, when I was a child, when I was younger, etc.
- The simple past can also be used to describe past facts or generalizations which are no longer true. As in use 4 above, this use of the simple past is quite similar to the expression "used to."
