

CONTINENTS and OCEANS

INSTRUCTIONS

1. Watch and listen to the song
2. Watch again and sing
3. Complete the words on the next page.
4. Listen again and check
5. Why does it say there are seven continents? Express your opinion.

CONTINENTS AND OCEANS SONG

Our Earth is a very, very, very big place!
It is covered by water and land.
It has five huge oceans, where we can swim,
And seven continents, where we can stand.

Asia is the continent that has the most _____.

It's also the largest in size.

It has the 50 highest mountains in the world—

Their peaks reach high into the skies.

Second largest is _____.

It's the hottest continent of all.

It has the largest sandy desert in the world

And animals both large and small.

If Africa's _____, then which is the coldest?

Antarctica—but it's so very cold.

It's only home to seals, penguins,

and other birds.

Though there's _____, it's the driest, I'm told! (SNOW/SLOW)

And which is the wettest? It's South America!

Rainforests cover much of its face.

_____ of animal species live there.

You'll find them all over the place!

Our Earth is a very, very, very big place!

It is covered by water and land.

It has five huge oceans, where we can swim,

And seven continents, where we can stand.

Let's look at _____.

It's the smallest of continents.

The fewest people call it home.

Most of its land is the bushland and outback,

Where _____ and kangaroos roam.

Now on to Europe. Though it's rather small,

It has dozens of famous old _____.

Berlin, Madrid, Paris, London, and Rome—

Each city is uniquely pretty!

Last but not least is _____ America.

It's the continent that I know best.

It is the home of our own United States—

A wonder from East Coast to West!

But let's not forget, there are also five oceans.

Please let me be quite specific.

Their names are the Southern, Atlantic,

and Arctic,

The Indian, and the _____!

....
