My name's Peter and I'm a koala fan! I'm British and koalas are Australian but I love them! They're interesting animals that live on the top of trees. They eat leaves at night and they sleep 18 hours a day. Their home is the eucalyptus forests of Australia.

Koalas carry their babies in a pouch. They live up to 20 years but now they are an endangered species.

They look harmless but they defend their family and they are friendly.
