

## **Algebra: Think Addition to Subtract**

Complete the addition fact that can help you to know that the difference is correct.

1.  $15 - 5 = \underline{\hspace{2cm}}$  so  $5 + \underline{\hspace{2cm}} = 15$

2.  $11 - 9 = \underline{\hspace{2cm}}$  so  $9 + \underline{\hspace{2cm}} = 11$

3.  $8 - 3 = \underline{\hspace{2cm}}$  so  $3 + \underline{\hspace{2cm}} = 8$

4.  $16 - 8 = \underline{\hspace{2cm}}$  so  $8 + \underline{\hspace{2cm}} = 16$

5.  $7 - 4 = \underline{\hspace{2cm}}$  so  $4 + \underline{\hspace{2cm}} = 7$
