**1. Read the following passage about the Statue of Liberty in New York. Decide if the statements are true (T) or false (F). Circle T or F.**

The Statue of Liberty is situated in New York Harbour. It was a gift to the United States from the people of France. The statue's 300 copper pieces were transported to America on a ship. In 1886, the statue was the tallest iron structure ever built. From the ground to the top, it measures 93 metres. Lady Liberty holds a torch in one hand and a tablet in the other. On the tablet is the date of America's first Independence Day, July 4, 1776. A broken chain lies at her feet. The statue is a symbol of freedom. Approximately four million people visit the statue each year. The statue will be celebrating its 130th birthday in October 2016.
