pocket – waterproof - fun - share - socket – variety plug - shapes – functions - download - helpful - electricity - record

## Intelligent phones

A smartphone is a type of 1 computer with the 2	
of a phone too. It is used for calling or video calling, sending	of
messages to friends and family. People also use smartphones to	me
have 3 in their free time. You can 4 social media	ha
apps, like Instagram,	
Snapchat or Tik Tok. There you	
take pictures or 5	
videos and 6 them.	<b>V</b> 0 2
It's one of the most 7	
inventions for	
everyone! Smartphones come	
in a 8 of 9 and colours, but they are usually	in
rectangular and made of hard, grey or black metal and plastic.	rec
Most smartphones are not 10, so take care of it in	Mo
the bathroom, the kitchen or near a swimming pool! It uses	the
11 only when it needs charging. To do that, you	11
12 the phone charger to your phone and the charger to a	12
13 In a couple of hours, your phone will be ready to	13
entertain you and connect you with others again!	en
