## Part 2 – Open cloze

**For questions 1–8, read the text below and think of the word which best fits each gap. Use only one word in each gap. There is an example at the beginning (0).**

Example: 0 **IN**

### Facial recognition glasses coming soon

New software from Lambda Labs based (0) **IN** San Francisco raises the prospect of never forgetting a face (1) \_\_\_\_\_.

The software enables a camera to detect faces and then identify them via a screen which sits above the user's right eye and is visible (2) \_\_\_\_\_ to them. However, the company has come up (3) \_\_\_\_\_ pressure from American senators to answer questions the wearable computer raises over privacy.

The first version of the software allows users to take photographs and tag them with information on who is in them. Comparisons can then be (4) \_\_\_\_\_ between subsequent photos and those previously uploaded. Future versions may (5) \_\_\_\_\_ allow real-time recognition of faces.

The company already makes software that allows the recognition of faces in digital photographs, and claims it is in use by 1000 developers (6) \_\_\_\_\_ work generates 5 million attempts at recognition per month.

They emphasize that the product is not yet fit (7) \_\_\_\_\_ public consumption, and limit its uses to internet searches and finding directions. They argue that the software will remove the barriers (8) \_\_\_\_\_ social interactions currently formed by mobile phones.

## Part 2 – Open cloze
