Big animals usually come into cities to find food. In Cape Town in South Africa baboons come into the city when they are hungry. They go into gardens and eat fruit from trees. Sometimes, cars and buses kill baboons in accidents. Human food is very bad for the baboons' teeth because it has a lot of sugar. Now, there are Baboon Monitors working in Cape Town. Their job is to find baboons in the city and return them to the countryside.

In Berlin in Germany, pigs sometimes come into the city to look for food. They eat flowers and plants in parks and gardens. Sometimes they eat vegetables from gardens and they walk in the street and cause accidents. Some people like the pigs and they give them food and water to drink.
