

One Less Than

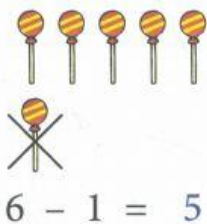

Greedy Jolly is gobbling lollies!

If I eat 1 lolly,
I will be left
with 2 lollies.

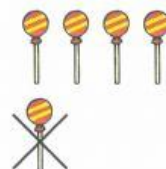

Help him to find the number of lollies, each time he gobbles one.

1 less than 6

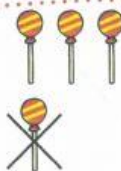

$$6 - 1 = 5$$

1 less than 5

$$5 - 1 = \square$$

1 less than 4

$$4 - 1 = \square$$

1 less than 3

$$3 - 1 = \square$$

1 less than 2

$$2 - 1 = \square$$

1 less than 1

$$1 - 1 = \square$$

Now, fill in the blanks. One has been done for you.

$$9 \text{ } 1 \text{ less than } 10 \text{ } 10 - 1 = 9$$

$$8 \text{ } 1 \text{ less than } 9 \text{ } \underline{\quad} - \underline{\quad} = 8$$

$$7 \text{ } 1 \text{ less than } 8 \text{ } \underline{\quad} - \underline{\quad} = 7$$

$$6 \text{ } 1 \text{ less than } 7 \text{ } \underline{\quad} - \underline{\quad} = 6$$
