Si tens ganes de sortir

Ho sento però no pots

T'hauràs de quedar a dins

Però amb els vídeos d'aquests tres

Jo he sigut molt feliç

Podria viure així

Ai, aquest virus que tenim

També ha aconseguit que ens unim!

JUDIT NEDDERMANN'S PIECE (TRANSLATION)

If you feel like going out
I'm sorry but you can't
You will have to stay
But Stay Homas' videos have made my days
I could live this way
Oh, this new virus has also pull us together

The story behind the song:

On May 15th, when everything started to get weird in Spain and lockdown was declared, these three friends decided to start recording -only with their cellphones and home-made instruments-one song a day, as long as the lock down would be held. They started sending their songs to cheer family and friends and soon they became viral. Some Spanish artists collaborated in their performances through their phones

This is their song number 6. Michael Buble got it from an Argentinian friend and he tweeted out. Suddenly, the song was featured for a #strongertogether festival and streamed all around the world. Upto today, this song has been heard over 1.200.000 times.
