6. Read the text and answer the questions.

The start of the new school year was difficult for Juan Alberto. The first day was very hard because he woke up late, so he had to get ready in a hurry to go to school. He was so confused that he forgot his way to school. Juan Alberto was so worried that from his house he walked to the park. At the park he found a lady and he asked her if she knew where the school was. The lady told him the school was to the northwest, near the water fountain.

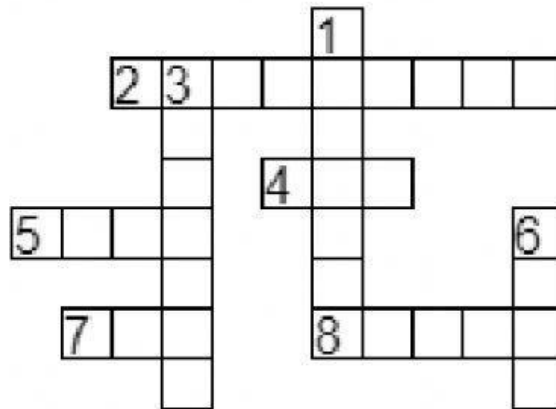

Juan Alberto asked a kid, who was playing in the park, for a second opinion. The kid said to take the main street all the way to the plaza. There he had to go to the church and walk three blocks to the right, where he will see the main entrance to the school. Juan Alberto thanked the kid and hurried to find the school.

- a. Who do you think gave Juan Alberto the best way to get to the school? _____
- b. Why is it important that other people help us to get orientated?

7. Solve the crossword puzzle.
