

B Reading and writing**3 Read and circle True or False.**

Hi, I'm Carol, our school celebrated a Green Day last month. We studied and learnt a lot of things about the environment and animals. So now we are going to visit a small village by the sea and we are going to help the people there start recycling paper and bottles. Our class is also going to collect rubbish in the forest behind the village. The village and the school are going to start together an animal reserve, too. There aren't many animals in the forest and we want to protect them.
