

Resources

What are resources?

A resource is something people use to meet their daily needs.

There are different kinds of resources:

- 1) **HUMAN RESOURCES:** people who do the work to make goods or produce services. All different jobs humans do.
- 2) **CAPITAL RESOURCES:** all the machines, objects, tools to do things or provide a service
- 3) **NATURAL RESOURCES:** Things we can find in nature and are not created by man.

NATURAL RESOURCES are divided in two kinds: they must be carefully conserved and protected

- 1) **RENEWABLE RESOURCES:** elements or things that replace or replenish themselves

- 2) **NON- RENEWABLE RESOURCES:** elements or things that don't replace or replenish themselves. There is a limited amount of them. they must be carefully conserved and protected

ACTIVITY

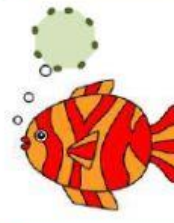

Look at the pictures of these different resources. Where can you find them? Write the number of the type of resource in the circles, then find their names in the word search of their corresponding type and write them under the pictures.

1 Natural Renewable

S	U	N	H	L	G	T	R	E	E
S	R	W	E	K	A	E	G	F	E
A	T	O	M	D	V	C	Z	O	S
R	N	L	W	I	L	D	F	X	R
G	X	M	R	S	P	A	I	M	I
Q	U	E	I	T	M	N	S	V	C
O	C	E	A	N	Y	B	H	T	E
O	A	D	I	X	C	E	B	A	Y
I	Y	J	R	P	F	L	A	K	E
