

Sumamos

Vamos a sumar como en el video: descomponiendo los números.
Completá todos los pasos, (si no te acordás cómo se hace, mirá el ejemplo).

$$\begin{array}{rcl} 22 & + & 15 = \\ \swarrow \downarrow & & \swarrow \downarrow \\ 20 & + & 10 \\ \swarrow \searrow & & \swarrow \searrow \\ 30 & + & 7 = 37 \end{array}$$

$\begin{array}{rcl} 41 & + & 25 = \\ \swarrow \downarrow & & \swarrow \downarrow \\ \square & + & \square \\ \swarrow \searrow & & \swarrow \searrow \\ \square & + & \square = \square \end{array}$	$\begin{array}{rcl} 24 & + & 33 = \\ \swarrow \downarrow & & \swarrow \downarrow \\ \square & + & \square \\ \swarrow \searrow & & \swarrow \searrow \\ \square & + & \square = \square \end{array}$
$\begin{array}{rcl} 58 & + & 21 = \\ \swarrow \downarrow & & \swarrow \downarrow \\ \square & + & \square \\ \swarrow \searrow & & \swarrow \searrow \\ \square & + & \square = \square \end{array}$	$\begin{array}{rcl} 14 & + & 31 = \\ \swarrow \downarrow & & \swarrow \downarrow \\ \square & + & \square \\ \swarrow \searrow & & \swarrow \searrow \\ \square & + & \square = \square \end{array}$
