

FRIENDS!

1. Read the sentences and match them to the adjectives from the box.

Lee las oraciones y unilas a los adjetivos del cuadro.

Ambitious	Hard-working	Kind
Outgoing	Reliable	Sensitive

I enjoy meeting new people

My friend Luke is always there for me

I want to go to university and become a lawyer

You are very nice and friendly

I get worried and upset very easily

My brother is always studying

2. Read the letter about friendship and its replies.

Lee la carta sobre amistad y sus respuestas.

I've become really good friends with a girl at school. However, we've realised we are total opposites! I'm sensitive and shy, but she's outgoing. And while I don't know what I want to do with my future, she's told me all about her plans for hers - she's very ambitious. So, my question is: Do opposites attract?

Sienna, 15

NO **Dr Annie Newman**

Unfortunately for you, scientists have proved that opposites do not attract. Studies have shown that true friends share the same interests, beliefs, and principles.

YES **Dr James Adler**

Lots of people make friends with their opposites. What's important is that you are both reliable and can always depend on each other. With these qualities, you've made friends for life!

a. Choose the correct answer to each question.

Elegí la opción correcta a cada pregunta.

1. Who says that good friends always help each other?
