

The Mummy Song

Miss Marianella

LISTEN TO THE SONG AND COMPLETE THE LYRICS

A) Write the missing words.

Of Egyptian Kings we know oh so many _____,
Cause the archaeologists have dug their tombs.
Now we're here to show, how to treat a dead _____,
Make a _____ that can decorate you room.

B) Choose the correct word.

First your dead kings lain on a **table / chair / bed** where his brain,
Is pull out with a wire through his nose!
Then his guts and lungs, stomach, liver must be bunged,
In **four / forty / fourteen** jars so they do not decompose.

Pour out salt to dry on the body, let it lie,
There for **four / forty / fourteen** days until it mummifies.
In the bandage wrap up the body leave a gap!
For the mouth and pop in artificial **nose / ears / eyes**.

C) Put the verses in order (from 1 to 4).

Pack his tomb with wealth, which he'll need for his health,
If he makes it to the country of the dead.
In the coffin cold lay out prayers in little scrolls,
That will guard him on his journey far ahead.

So our mummy and it's coffin we defend.
Build a pyramid high, so it points up to the sky!
Now you've done your job, there are villains who will rob,
Place your dead king deep inside and that's the end

D) Drag and drop the pictures in the correct place in the chart.
