

# Why should we protect the environment?

1) ANIMALS AND THEIR HABITATS: Drag the words to their correct space in the picture

GIRAFFE BUTTERFLY PENGUIN TURTLE CROCODILE DOLPHIN

WOLF POLAR BEAR ELEPHANT FISH RACOON EAGLE

2) Read and listen to the text about the Komodo Dragon. Complete the spaces with the missing words.

## The Amazing Komodo Dragon

Have you ever seen a small lizard in a garden? How about a giant lizard? In the (1) \_\_\_\_\_ island country of Indonesia, there are between 4,000 and 5,000 giant lizards called Komodo dragons. They are (2) \_\_\_\_\_ Komodo dragons because one of the five islands they live on is called Komodo Island. They are the largest species of lizard in the (3) \_\_\_\_\_. Adult Komodos are usually three meters long (4) \_\_\_\_\_ weigh about 70 kg. The (5) \_\_\_\_\_ Komodo ever was an amazing 166 kg! European scientists discovered (6) \_\_\_\_\_ in 1910, and when Hollywood producers heard about them they (7) \_\_\_\_\_ a movie about a giant gorilla called 'King Kong'. The Komodos live for about 40 to 50 years. They (8) \_\_\_\_\_ almost anything they can catch; for example, birds, bird eggs, monkeys, deer, and horses. Sometimes (9) \_\_\_\_\_ even eat other smaller Komodos, and sometimes (but not often) even people. They especially (10) \_\_\_\_\_ to eat dead and dying animals. There are only about 50 Komodo dragons in zoos around the world. (11) \_\_\_\_\_ there are so few of them living in the wild, a park called Komodo National Park was opened in Indonesia in 1980 to (12) \_\_\_\_\_ them.
